[manjilkarmacharya@gmail.com](mailto:manjilkarmacharya@gmail.com)

## OBJECTIVE

Completed a bachelor's degree in computer science from Sunway College, providing a solid foundation in computer science principles. Motivated and enthusiastic Web Development student, currently in the early stages of mastering the MERN Stack (MongoDB, Express.js, React, and Node.js) through an intensive learning program. Driven by a strong desire to build innovative web applications, with a foundational understanding of JavaScript and modern web development principles. Previously worked as a Flutter Intern, gaining hands-on experience in developing cross-platform mobile applications. Eager to apply new skills in practical scenarios and seeking a supportive workplace where I can continue to learn and grow alongside a forward-thinking tech team.

## EDUCATION

### BCS. IT

2023

Bachelor's in computer science (BCS-IT) (Previously affiliated with Infrastructure University Kuala Lumpur, Malaysia, and currently affiliated with Birmingham City University, UK.)

## SKILLS

<b>Technical Skills</b>	HTML, CSS, JavaScript (Basics – I am in learning phase)
<b>Soft Skills</b>	Problem-solving, Communication, Teamwork, Adaptability
<b>Tools</b>	VS Code, Git, GitHub

## EXPERIENCE

### Data Annotation Specialist

Jan 2020 - Aug 2024

Cloud Factory

*Kathmandu, Nepal*

- Annotated complex life insurance data, ensuring accuracy and compliance with project guidelines.
- Collaborated with a team to efficiently process high volumes of sensitive data while maintaining strict confidentiality and quality standards.
- Developed strong communication skills by communicating with project managers and team members to clarify requirements and resolve ambiguities.
- Enhanced team collaboration through active participation in peer reviews and group problem-solving sessions to optimize workflows.
- Consistently met or exceeded project timelines and quality benchmarks, contributing to the success of the Three Flow project.

### Flutter Developer Intern

March 2023 - June 2023

Eagle Rain Technologies Pvt. Ltd.

*Kathmandu, Nepal*

- Learned and developed skills in the Flutter framework, focusing on creating cross-platform mobile applications.
- Gained experience with Firebase Store for integrating real-time databases, user authentication, and cloud storage.
- Worked on enhancing UI/UX designs to create responsive and user-friendly mobile applications.
- Learned best practices in coding, debugging, and collaborating in a development team environment.
- Improved problem-solving abilities by troubleshooting technical issues and providing effective solutions

## PROJECTS

**Android Based Smart Grocery Shopping Application:** Developed an innovative Android-based smart grocery shopping app utilizing Dart, Flutter, Firebase, and React JS. This app features a grocery shopping list for users to create and manage customized lists efficiently. It also includes a scan-and-add function, allowing users to quickly scan barcodes to add items to their shopping cart.
